For the choice of your next hike, look at the website [www.greenflagtrails.org](http://www.greenflagtrails.org) for accredited trails. Remember an accredited trail is not necessarily a good trail (due to subjective opinions), but it ensures a safe hike and the information provided will tell you exactly what to expect in terms of type of environment, difficulty rating, accommodation and trail facilities. It will (should) be under good management.

7.	Did this trail do justice to the Green Flag concept?	Yes	No
